Gaylord Football Team Here Saturday; West Branch Defeats Locals

The Grayling High school football team lost to West Branch last Friday, 28-0.

With an effective offense West Branch scored three quick touchdowns in the first half. The first touchdown was scored by Mel Peterson on a reverse, thru pass after the Orange and Black had the ball for the first time. White, a fast, elusive back, scored the second touchdown on an eighty yard jaunt. The West Branch third touchdown was the result of an interrupted pass deep in Grayling's territory.

West Branch scored their final touchdown in the last half. During the third and fourth quarters Grayling's Green and White footballers easily outgained the West Branch team, but inexperienced prevented the locals from crossing the line. Grayling was in scoring territory on three occasions.

As expected, in all inexperienced squads, the tackling and blocking of the local squad was not up to par. However, as the game advanced the boys played improved football and with more work on tackling and blocking the squad should be set for the coming games.

For the West Branch game, Grayling's starting lineup was: Le, Dunham; lt, Perry; lb, Gorman; c, Welsh; rg, Corwin; rt, Palmer; re, McDonnell; o, Clark; lb, Thompson; rh, Ruthowski; and Andrus. Also getting into the game were: LaChapell, Fairbotham, Melichar, and Kolka.

Annual Meeting Sportsman's Club

The Grayling Sportsman's Club held their annual meeting at the Grange Hall last Tuesday evening, Sept. 24th. Election of officers for the coming year were nominated as follows: Earl Madsep, president; A. Clough, vice-president; L. Galenhouse, secretary; Robert Sorenson and R. McEvers, directors-at-large.

Many topics were up for discussion and among those which were of particular interest to the sportsmen was the elimination of night fishing on our trout streams to conserve our larger fish.

The question of using outboard motors on certain parts of the stream also was discussed and many were in favor of doing away with the use of motors in certain areas on the trout stream. A joint meeting will be held with the Frederic Sportsman's club and the local club to discuss these matters from a county-wide standpoint.

It is hoped that with the combined efforts of both clubs that Mr. Harry Gaines, secretary of the M.U.C.C. can arrange to be present at a county-wide sportsman meeting to be held early in October.

The New Fluid Drive

Dropping around at Alfred Hanson's garage, we had a look at the new Chevy. It's several inches wider than the 1940 cars. "While you're here you better see the new 1941 Oldsmobile," Mr. Hanson said. We did and it is certainly a beautiful job. Mr. Hanson explained the new "Hydra-Matic drive." "Nothing to do but start the engine, select your direction and step on the gas."

We were invited to take a ride in the car, and were privileged to drive. It just didn't seem natural not to have a clutch pedal. All we had to do was to turn the key in the switch and step on the accelerator—go just as slow and as fast as we wanted to.

Starting in 1st the gears shift automatically from one position to another, depending upon the speed of the car, without having to do a thing but steer and step on the gas. To stop we used the brake. When the car came to a standstill we released the brake, the motor kept on running but the car stood still. Then to start all that was necessary to do was to depress the accelerator, and away went the car. We purposely drove into some deep, wet sand ruts, at high speed. The car instantly slowed down and when the motor struck slow speed it dragged the car out of the mire with ease and then immediately resumed its former speed. It is really marvelous what the new type of cars can do these days. A man can drive with one foot just as well as with both.

FACULTY OF GRAYLING SCHOOLS ENTERTAINED

The Womans Club, together with the school board, entertained the faculty of Grayling schools at a get-together and pot-luck dinner at Michelson Memorial church Wednesday evening.

Some eighty sat down to a very fine dinner which was followed by a short program. Mrs. Willard Cornell, president of the Club, welcomed the guests and announced the numbers on the program. Mr. T. P. Peterson, president of the school board, made a few remarks representing the board. Mr. Frank Bond, superintendent of schools, responded for the faculty.

Mrs. Roy Milnes and Don Gothro sang a duet "Carry Me Back to Old Virginia"—Toster. Miss Virginia Peterson played a piano selection "Tanzweise" by Meyer Helmund.

The guests were then invited to remain for a get-acquainted hour to meet the new teachers and welcome back those returning for the school year.

THANKS THE VOTERS

At this time I wish to thank the voters of Crawford county for the fine support accorded me in the recent Primary election.

Michigan's share of the Great Lakes area is nearly twice the area belonging to the seven other states that border these lakes, and is more than is controlled by the Province of Ontario.

Kiwanis Club Notes

The guest speaker at the Kiwanis club luncheon, Monday, Wednesday was C. A. Pauquon, chairman of the educational department of the State Commission on education. Several new members were taken into the club.

Mr. Pauquon told of many interesting matters pertaining to the operations of the commission. Mistakes made come in for considerable discussion, and only indicated the serious efforts that have been made in past years in order to give the public and especially sportsmen what they want in the way of fish and game.

Several years ago, on the suggestion of someone who had come from abroad, eels were introduced into Michigan lakes only to have them die out after learning that in order to spawn it was necessary for them to return to salt water. This was impossible. Again German eels were planted in Michigan lakes at great expense, while at the same time Michigan is spending thousands trying to get rid of them.

Raindeer, imported from Norway at great cost, are now being kept in existence. All these experiments were costly but at the same time other experiments prove more successful and are going on in Michigan woods and waters.

It is especially true with the planting in Michigan waters of rainbow trout. Mr. Pauquon's address was interesting and educational and much appreciated.

Dr. Stanley Miller and Archie Cripps were taken into the club and Frank Bond, a former member, reinstated.

Celebrate Silver Anniversary

Sunday marked the silver wedding anniversary of Mr. and Mrs. T. P. Peterson, and to celebrate the occasion their three daughters, Misses Jean, Beatrice, and Virginia, entertained in their honor on Saturday evening. About thirty guests were present, among them being the bridesmaid and bestman of twenty-five years ago, Mrs. Evert Safford of Vassar, sister of Mrs. Peterson, and Adolph Peterson of this city, brother of Mr. Peterson.

The evening was spent informally, and at eleven o'clock the guests were invited to the dining room, which was lighted by numerous white tapers. A lovely buffet lunch was served from a long table covered with a white linen cloth, and centered with a three-tiered anniversary cake guarded by white tapers in crystal holders.

Mr. and Mrs. Peterson were the recipients of several lovely gifts of silver, and numerous congratulatory cards.

Those from out-of-town who were present at the party were: Mr. and Mrs. Evert Safford, Mr. and Mrs. Donald Berry, Mrs. Vern, the mother of Mr. Peterson, Mr. and Mrs. Stewart and daughter Mary Ellen, a family of Vassar, except Miller of West Branch.

Announcing the big NEW FORD 1941 FORD

In some years, some cars take a big jump ahead. *The Ford does that for 1941.*

It has jumped ahead in size. It's the *biggest Ford* we've ever built, *inside and out.* It's *wider.* It has a *longer wheelbase.* Its seating room is *wider* by as much as 7 inches. It has *new wide doors* and *semi-concealed running boards.*

You'll notice also a new beauty, achieved by a skillful blending of mass with *longer flowing lines.* *Larger windshield and windows* give better vision all around.

One of its biggest advantages is the *new soft ride.*

New, slower-action springs give a slow, gentle, gliding movement. A *newly designed stabilizer* helps absorb road shocks, and maintains balance on sharp curves and in cross winds.

More rapid acceleration to match its familiar speed and power makes this new Ford an even livelier car to drive.

These are only a few of this new car's *outstanding features.* It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.

Get the Facts and You'll Get a Ford!

HIGHER VISUAL STANDARDS IMPROVE SAFETY RECORDS

Business organizations throughout the country are learning that higher visual standards of workers result in improved efficiency and better safety records, according to the Better Vision Institute. A company using a large number of motor trucks had 17 accidents during one and one-half years. One of its drivers was involved in three accidents during that period. Then the company conducted eye examinations of all drivers, requiring men with visual defects to have them corrected. During the next year and one-half period accidents dropped down to only two. The driver who had three accidents during the first period was found in the eye tests to have a serious defect in vision. This was corrected, and during the second period he had a perfect record with no accidents.

Another company which was spending an average of \$12.50 per worker annually in medical attention and compensation conducted a visual survey of its workers. Defective eyes were brought up to standard and goggles were provided for use in those tasks with unusual visual hazards. The program was backed up with a safety educational
